Florida Youth To Attend Institute Of Co-Operation

GAINESVILLE—For the third consecutive year a Florida farm youth group will represent the Southeast at the summer meeting of the American Institute of Co-operation, to be held at Colorado State University, Fort Collins, Aug. 18-21. The South Dade Chapter, Future Farmers of America, Homestead, will send two carloads of members and leaders to the conference.

This is the second time the Dade County group has won the honor, having taken it in 1955. Last year it was won by the J. F. Williams Memorial Chapter of Live Oak. The Dade chapter won \$500.00 in the state contest and \$800.00 in the Southeast regional contest. This region consists of 13 states, Oklahoma to Virginia and southward. Paul Brooks of Homestead will represent his chapter and Florida as speaker before 2,500 persons attending the institute at the meeting Monday night, August 19. The chapter advisor for South Dade is Lansing Gordon.

The state winner of the 4-H Co-operative Activity Contest is the Barrineau Park 4-H Club of Escambia County from which a group of boys and leaders will go to Fort Collins. Burley White of this club has been chosen to appear at the institute to deliver an eight-minute talk in behalf of all 4-H Club boys in the United States. Last year Sandra Dennison of Orange County represented the 4-H girls of the nation in this capacity at the institute held in Raleigh, N. C.

Leaders from Escambia County who will go to Fort Collins are Merwyn Barrineau, Carl Gindl and Assistant County Agent Calvin Winters.

According to Dr. E. W. Calk, agricultural economist of the Florida Extension Service, who is in charge of this phase of farm youth activity, the South Dade FFA chapter earned about \$2,500 for its treasury on the chapter's farming projects, and the 134 members averaged savings and investments of \$550 per member.

The winning 4-H Club from Escambia County has 15 business prospects which represented nearly 2,000 hours of work and earnings of more than \$400. It is a club of 14 senior boys.

Chamber Studies Plans For 4th July

Olan Spee, Joe Alderman and J. V. Thomas were named on a committee to make arrangements for the dinner which the board hopes to make an annual event.

Since the Fourth of July program held annually at Pahokee Harbor under the sponsorship of the chamber is attracting greater interest and larger crowds each year, it was decided to start planning immediately for a more spectacular and longer fireworks display and a greater variety of other entertainment for next year's program. Ralph O. Johnson, Louis Gold and Jack Spencer were named on a special committee to work out details for an expanded program next Fourth of July.

Foot Ball Plans Take Form Under Pell's Direction

Coach C. W. Pell has issued a call to all candidates for the Pahokee High 1957 Blue Devil football team to meet in the projection room at the high school Saturday, Aug. 17, at 4:30 p. m. to organize for preseason practice and receive practice shoes. Practice sessions on Lair Field will get under way at 4 p. m., Monday, Aug. 19 and will continue to be held at 4 p. m. in the afternoons daily, Mondays through Fridays, until the season starts. At first conditioning exercises will be featured to get the squad toughened up for the rugged scrimmage and body contact work that will be the order of the day after the start of school.

Coach Pell and his assistant, Coach W. D. Howard, are facing the task of building an entirely new Blue Devil eleven this fall as every first stringer on the 1956 team, except for all-Suncoast Back Richard Weeks, were lost through graduation in June. Donald Thompson, a lineman, and Rich R. Shadford, back, are the only other members on last year's squad to classify as returning lettermen.

Pell expects around 35 boys to report for preseason practice and can make no prediction about the Blue Devil's prospects for this season at the present time as it will be strictly an untried, junior aggregation. Much hard training will be necessary to get an effective Blue Devil team shape for the opening game at Bartow on the night of Sept. 20, he says. There will be four home games and six out of town.

The 1957 Blue Devil Schedule: Sept. 20—Bartow, there. Sept. 27—Clewiston, home Oct. 4—Fort Pierce, home Oct. 11—Seacrest, home Oct. 18—Lake Worth, there Oct. 25—Okeechobee, there Nov. 1—Stuart, there Nov. 8—Vero Beach, home Nov. 15—Pompano, there Nov. 27—Belle Glade, there

Cinematic Chatter

By Malcolm Millar

Hello everybody! Dana Wynter changed her name from Dagmar to Dana and pronounces it Danna. More recently, she married one of Los Angeles most prominent attorneys and changed her name once again . . . to Mrs. George Bautzer. Dana says she feels very much at home in the U. S. A. It's odd, though, she says. "I grew up in Southern Rhodesia, where my father was a surgeon. And now, when I finally feel transplanted, I have become very fond of America and the American people." The acting bug, which Miss Wynter describes as a "virus not yet isolated by mankind," bit her when she joined the University of Rhodes in Rhodesia, and with it, the acting group known as "Fadssa." "We were initially happy over there, too," she says. "The group's real name was 'Festival of Amateur Dramatic Societies of Southern Africa.' "My first role was that of a blind girl in "Through the Glass Darkly," and I was terrible. However, it didn't stop me from giving up the idea of studying medicine and substituting drama, instead." Two years later, Miss Wynter journeyed to London (her birthplace), and enrolled in the Old Vic Young Players group. She has been acting ever since. After three tours of the provinces and several BBC television appearances with Raymond Massey, Orson Welles and others, she decided to try her luck in New York in 1953. Asked by her agent what type of work she wanted to aim for, she replied, "Oh, a little bit of everything. How about TV's Robert Montgomery Show?" That is right where she started. Today Miss Wynter is a very popular Hollywood star, both in films and in filmland society. See you at the movies—Mal.

New Eau Gallie Industry

A new industry to be established in Eau Gallie is reported by Chairman Howard W. Yawn of the Industrial Committee. This plant will be primarily for research and development of small machine parts made for electronic and aircraft equipment. The Eau Gallie locale was chosen for its proximity to the Glenn L. Martin plant in Orlando, Radiation, Inc. in Melbourne, PAFB, and Pratt & Whitney in West Palm Beach, with their potential as a source of subcontracts to the new industry.

The State Budget Commission has released nearly eight million dollars to pay for immediate construction of state buildings, the first funds taken from the 102-million dollar building program approved by the Legislature.

The city of Lake Wales was recently presented with its third consecutive award for outstanding pedestrian safety from the American Automobile Association. The award was based on a record of no pedestrian fatalities in 1956.

Age and Wisdom

Mac Johnson's mother just moved near one of them big airports, and Mac was concerned about her gettin' enough sleep at night. Seems like the planes start takin' off about one o'clock in the morning, one every two minutes for an hour and a half . . . makes an awful racket.

Mac asked his mother about it bothering her sleep the last time we were over there. "Yes," she told him. "They do bother me. The trouble is they take off so fast I hardly have time to say a prayer for each one."

Mac and I just looked at each other while she went to get us

a glass of cold beer from the kitchen. As she put it on the table, she remarked, "You know a person can choose to get upset about something or not. It's like drinkin' beer. I don't choose to drink it myself, but I don't mind if other people do."

From where I sit, that kindly attitude will add ten years to her life.

Helpful Hints For Vacation Will Find You Healthy Upon Return

Here are some thoughts on late vacations:

An employer's and an employee's conception of a vacation differ considerably. The employer emphasizes rest and relaxation for the vacationers. The employee thinks in terms of fun and activity.

Possibly more attention should be given to rest in connection with vacations. Too many people returning to work after their two weeks off sigh wearily and say "I'm glad to get back to the office for a rest."

The annual vacation in the United States has become an actual necessity for health and well-being. But for maximum benefits it should be restful above all.

Rest the mind, rest the eyes, rest the body, is good advice to the late summer and early fall vacationist.

The annual "rest period" should

be spent so that you return refreshed rather than fatigued.

Here are some tips on taking vacations for rest and relaxation:

Don't get into a cross-country driving marathon. Realize that you can't see the whole United States in two weeks. Settle for a leisurely sightseeing trip if you spend the time in travel.

Rest the mind with books if you are going to settle down somewhere; if traveling visit historical places on the way. This kind of visiting will take your mind off present-day worries and troubles.

You use your eyes more on vacation than you do normally. They are also subjected to unusual strain. For tired eyes use sun glasses that are most restful. It is also a good idea to carry a bottle of Murine in the car dashboard compartment. Move off the road when you feel tired and take a nap.

Keep the body relaxed by mild exercise. Don't attempt a strenuous athletic program. If you are going to do a lot of walking, do it in easy stages. Unless you are in really good condition—and few vacationers are—start your sports activities in mild doses until your muscles are limbered up.

And, finally, remember that the sun will burn the pale city dweller's skin. Use sun tan lotions and don't stay out too long. A sunburn isn't relaxing.

Remember, let the word "rest" rule your vacation at all times.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. *That means a return of up to 80% more than you originally paid.*

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

U.S.—Bulwark of Freedom

BIRTHDAY OF A FREE NATION as the Declaration of Independence was presented to Congress in 1776. Contrary to popular belief, this historic document was not signed by Congress on July 4th. Instead, the Act by which the original 13 states broke colonial allegiance to Great Britain was approved by Congress July 2, proclaimed on July 4th, and signed at various times up to Nov. 4.

SYMBOL OF HUMAN RIGHTS and freedom, the Liberty Bell in Independence Hall rang out at every festival and anniversary of Independence until it cracked in 1835.

BIRTHPLACE OF OUR NATION was Independence Hall, Philadelphia, where Continental Congress met, Declaration of Independence adopted and proclaimed, Washington appointed Commander-in-Chief, and U. S. Constitution framed.

OUR NATION'S CAPITOL, moved from Philadelphia to banks of the Potomac in 1800, today is a majestic city, nerve center of a great country, and the hope of freedom-loving people everywhere. The capitol dome, sprawling office buildings, monuments, memorials, and 7,000 acres of public parks including the Mall shown here, are familiar sights to countless Washington visitors.

Cypress Gardens Viewed Annually By 1,250,000 Folks

WINTER HAVEN—A tribute to the effectiveness of the work of Richard Downing Pope, "The King of Beauty Queens" and owner of Cypress Gardens, along with his fellow publicists and promoters in Florida, appears in the September issue of Esquire magazine which is now on the newsstands.

"Tourist attractions have made Florida a land of lands—Gatorland, Storyland, Marineland, Tropical Adventureland; and of warm springs (Weeki Wachee Spring) where mermaids drink Coca-Cola under water," states the five-page article written by Arthur Herzog. "At the center—geographical and spiritual—of the Florida tourist attraction business in Cypress Gardens," continues the tribute, "this \$3,000,000 a-year botanical treasure which is Dick Pope's property and home base."

Author Herzog goes on to describe the activities of Mr. Pope and his staff of 246, including seventy water skiers, mostly girls; thirty five models, all girls; twenty-six gardeners, three men who do nothing but paste Cypress Gardens bumper strips on cars in the parking lot, three traveling publicity teams, general manager Bob Ward and publicity director Al McFadyen.

Cypress Gardens also boasts a staff of eight photographers, working a six-day week as they add 40,000 photos a year to Pope's gallery of 300,000 publicity photographs. On an average day, the article states, a hundred U. S. newspapers will carry a photograph taken at Cypress Gardens, and one of Pope's queen shots appeared in 3,670 newspapers.

Author Herzog goes on to state that Mr. Pope's publicity standby has been the "crowned and sceptered beauty queen." Since 1935, the year of his first crowning, a thousand queens have mounted his daises and they continue to mount at the rate of fifty a year.

Cypress Gardens is made up of 106 acres of tropical plants, cypress trees, pseudo-sylvan canals and parking lots, according to Herzog, and 3,000 varieties of plant life are laid out in the best traditions of a movie set. Last year 1,250,000 tourists were drawn to the Gardens despite the fact that it does not lie on the main route down the East Coast to Miami. The article goes on to describe other Cypress Gardens activities and is a real tribute to Richard Downing Pope and his fellow publicists who have done so much to bring the tourists to Florida.

Horticulturist Says Start Now For Fall And Winter Flowers

GAINESVILLE—The home flower gardener will make plans now for colorful annuals and perennials for the coming winter and spring, according to S. A. Rose, ornamental horticulturist with the Florida Agricultural Extension Service.

He says seeds can be sown from now through September for a number of plants which are hardy and will withstand some freezing. They include calendula, candytuft, cornflower, dianthus, lupine, pansy, snapdragon, statice, stock and verbena.

The seedbed should be well prepared and if the soil is sandy add and mix several inches of some organic materials such as peat moss. The soil should be moist but not allowed to get too wet and remain in that condition for long. For mid-summer sowing it is best to use a shaded area of the garden to protect the young seedlings from hot sun.

Transplant young seedlings as soon as they are large enough to handle. The place into which transplanting is done should be prepared in advance and holes punched in the soil. Seedlings are carefully lifted from the soil, and placed in the prepared holes at the same depth they were in the seedbed.

Water newly transplanted seedlings and shade them until new roots form, which they may be gradually brought back to full light.

Opening day, Sept. 2, will be a holiday, with school resuming on Sept. 3.

"Old Black Joe" In Limbo On Networks

WHITE SPRINGS—Florida's state song, "Way Down Upon the Suwannee River," and many other Stephen Foster classics can no longer be sung in their original versions on the major broadcasting and television networks because of recently imposed censorship regulations. Foster L. Barnes, superintendent of the State's Stephen Foster Memorial, has disclosed.

First hint of the ban came in a column written by Dorothy Kilgallen. A check with network officials disclosed that references to Darkies, Massa, Mammy, Colored Man and Old Black Joe are now taboo.

"It is my understanding," Barnes said, "that the networks were forced by minority group pressure

to set upon "authorized version" of edited lyrics on certain Stephen Foster songs, substituting words for those deemed objectionable to particular racial groups."

In DeLand, Earl W. Brown, chairman of the Stephen Foster Memorial Commission, a state agency, said he would ask the Federal Communications Commission to investigate the circumstances of the censorship move.

"If pressure can cause censorship of Stephen Foster's compositions, could pressure also bring about censorship of news?" Brown asked.

The State Plant Board, Florida Citrus Commission, Florida Citrus Mutual, the U. S. and Florida Departments of Agriculture and the Agricultural Experiment Station are cooperating in a citrus tree counting survey which will eventually include all 36 counties in the Florida citrus belt.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$30,000.

Now even better! Invest more in Savings Bonds!
